WEATHER ADVISORY NO. 14

For: Shear Line

Issued at: 11:00 AM, 07 January 2026

Heavy rainfall outlook due to Shear Line				
Forecast Rainfall	Today to tomorrow noon (January 8)	Tomorrow noon to Friday noon (January 9)	Friday noon to Saturday noon (January 10)	Potential Impacts
(>200 mm)	-	-	-	<ul style="list-style-type: none"> Widespread incidents of severe flooding and landslides expected.
(100 – 200 mm)	-	-	-	<ul style="list-style-type: none"> Numerous flooding events are likely, especially in areas that are urbanized, low lying, or near rivers. Landslide likely in moderate to highly susceptible areas.
(50 – 100 mm)	Camarines Sur, Catanduanes, Albay, and Sorsogon	-	-	<ul style="list-style-type: none"> Localized flooding is possible mainly in areas that are urbanized, low lying, or near rivers. Landslide possible in highly susceptible areas.

Forecast rainfall may be higher in mountainous and elevated areas. Moreover, impacts in some areas may be worsened by significant antecedent rainfall.

The public disaster risk reduction and management offices concerned are advised to take all necessary measure to protect life and property. PAGASA Regional Services Divisions may issue Heavy Rainfall Warnings/Thunderstorms Advisories, and other severe weather information specific to their areas of responsibility as appropriate.

Unless significant changes occur, the next Weather Advisory will be issued at 5:00 PM today.
